Profile

I am an experienced web developer and IT specialist with a passion for crafting elegant user-friendly interfaces, proficient in front-end technologies such as HTML5, CSS3, JavaScript and React.js, as well as back-end languages like Node.js and Python.

Skilled in responsive design, cross-browser compatibility and optimizing website performance, strong problem-solving abilities and a commitment to staying updated on technologies and industry trends.

Having comprehensive technical support and proficient in troubleshooting hardware, software, and network issues with expertise in systems administration, cloud computing and cyber-security. Skilled in managing IT infrastructure, implementing technology upgrades and ensuring data integrity protocols.

Continuously seeking opportunities to leverage emerging technologies to optimize processes and drive business growth.

Employment History
