PROFESSIONAL SUMMARY

A results-driven public health professional with a passion for promoting health equity, educating communities, and designing health policies that are sustainable beyond political cycles. I hold a Master's degree in Public Health (Health Promotion) and am currently pursuing a PhD in Public Health. With over five years of experience in health education, quality assurance, and community health program management, I have contributed to impactful public health initiatives. Known for my strong research skills, critical thinking, and ability to analyze data to shape policy, I have worked across multiple sectors, including healthcare facilities, community organizations, and educational institutions. My career is driven by a commitment to make meaningful, long-term improvements to public health.

KEY SKILLS

- **Health Education & Promotion:** Designing and implementing programs to educate communities on disease prevention, nutrition, and health practices.
 - **Data Analysis & Epidemiology:** Conducting research to identify health trends and applying data to influence decision-making and public health strategies.
 - **Quality Assurance & Compliance:** Ensuring adherence to health standards in production and service delivery, including staff training and facility inspections.
 - **Community Engagement:** Proven success in interacting with diverse groups, leading workshops, and driving public health campaigns.
 - **Research & Academic Writing:** Extensive experience in academic research, contributing to published works on health topics and providing actionable insights.
-

EDUCATION
