- d. Service outside the University - Nil
- e. Co-Curricular Activities - Music

J. CONTRIBUTION TO KNOWLEDGE:

My contribution to knowledge is in the area of urban restructuring. I have been able to highlight street trading as a deterring factor to urban landscape in Nigerian cities, using Lagos as a case study(Paper 1).This has further been established by the Lagos state Government's extensive implementation of many of the recommendations in the paper. In Delaying the bulldozer (contribution to a book), the need for proper planning on the part of Government in facing the challenges of ridding the urban landscape of slums and squatter settlements, and avenues of approaching the problem has been brought to light.
