## WORK HISTORY

### • FREELANCE DEVELOPER

Mar. 2015 – Till date.

My work encompasses all facets of communications design: branding and corporate identity, print, packaging, book and magazine design, illustrations and new media. In 2018, I began also to develop websites using CMS such as WordPress which is what I major on. Outside projects I've completed for agencies home and abroad, I've had personal clients that I've solved their design needs which can be viewed in my portfolio link above

### • WORDPRESS DEVELOPER (REMOTE), DIGIPLANET SOLUTIONS. LAGOS, NG.

June 2021 – July. 2021.

- I use Adobe XD to create website prototype UI.
- I design and develop website using Elementor Page Builder from start (implementing client's brief) to launch (live functional website).
- I also worked as brand identity designer and I was able to create a stunning logo.
